

PRODUCT PORTFOLIO

F-2000 VITREOUS CHINA URINAL

Falcon Waterfree® urinal systems reduce water and sewer costs, lower maintenance and repair bills, and create more hygienic, odor-free restrooms. Our patented three part system, including vitreous china bowl, sloped housing and cartridge, eliminates the need for water, conserving up to an average of 40,000 gallons (150,000 liters) or more of water per urinal each year.

The unique and contemporary design of the F-2000 has made it a popular choice in many upscale locations where its narrower and smaller profile adds a touch of flair to any restroom. This waterless urinal is constructed of vitreous china and is a wall hung, wall outlet unit. The F-2000 meets ANSI/ASME A12.19.19-2006 for vitreous china non-water urinals and is CSA approved. It also meets the American Disabilities Act guidelines and ANSI A117.1 for accessible and usable buildings and facilities and complies with International Plumbing Code, National Standard Plumbing Code and Uniform Plumbing Code requirements.

“Falcon Waterfree urinals are predicted to be 500 times more effective against back migration of sewer gases as compared to conventional P-trap water barriers.”

-Michael Hoffman, Ph. D
California Institute of Technology

BENEFITS

- Uses no water for operation
- Five times less bacteria than flush urinals
- Reduced water and sewer costs
- No costly flush valve or sensor repairs
- No replacement sealant costs
- Provides downhill flow, helps reduce clogs
- Minimal care and easy cleaning
- Improved hygiene and safety
- Dual barrier protection
- Odor-free
- Stylish, modern appearance

FEATURES

- Touch-free operation
- Mechanical-free design
- Patented locking cartridge
- Maintenance-free cartridge
- Smooth, non-porous surface
- Vitreous china bowl
- Unique shape

SYSTEM INCLUDES

- Vitreous china bowl
- Installed cartridge housing
- Cartridge kit*
- Exclusive pipe-in-pipe technology*
- One-piece wall bracket with anchors*
- Drain line test cap*
- Uni-coupler*
- Installation Instructions

CARTRIDGE KIT* INCLUDES

- One sealed cartridge
- Pre-measured liquid sealant pack
- Installation key
- Disposal bag
- Plastic gloves
- Instruction sheet
