

WHERE DO I USE IT?

lotus® PRO technology for extended sanitizing power.

Universities, factories, hospitals, office buildings, hotels and retail stores all over North America and Europe have put us into their janitor closets and cleaning stations to clean and sanitize with Stabilized Aqueous Ozone instead of cleaning chemicals. It works hard as a natural all-purpose cleaning and sanitizing agent for hours, after which point it turns back into water and oxygen.

Approved. Proven. Powerful.

BENEFITS

- › Cut costs of buying, storing & mixing chemicals
- › No mixing, rinsing, VOCs or toxins
- › Eliminates multiple chemicals & guesswork
- › Meets highest safety & performance standards
- › Attaches to walls easily
- › Long-lasting reliability & performance
- › Increased productivity, safety & greenability
- › On-demand availability and power for any job, anywhere
- › No more trips to the cleaning closet for refills
- › Proven to reduce slips & falls *

FEATURES

- › Natural cleaning solution
- › All-in-one cleaning and sanitizing solution
- › Regulatory approval by EPA, FDA, OSHA, CSA, UL
- › Mounting systems standard
- › Durable base with shatter-proof bottle
- › No mixing, rinsing, VOCs or toxins
- › Runs on cold tap water & 120V power

APPLICATIONS
